

LIVOS URA STAIN PASTE – COLOURS PIGMENTS – INTERIOR/EXTERIOR

RANGE OF APPLICATIONS: For tinting all LIVOS Brand Wall & Ceiling Paints and Natural Texture Render.

TECHNICAL QUALITIES: Non-fading. Mixable at any ratio with DUBRON Natural Dispersion Paint No. 400 and ALBION Natural Wall & Ceiling Paint No. 407, maximum addition to ALBION Natural Dispersion Paint No. 404: 10 %; to BELSA Natural Texture Render No. 462: 5 %. Limited wipe-ability when used as full-tone paint. **FULL**

INGREDIENTS: Water, iron oxide and mineral pigments, beeswax soap, linseed oil - stand oil, dammar resin, natural resin ester, orange oil, Isoaliphates, ethanol, silica acid, methyl cellulose, borax and boric acid.

COLOURS: 005 Sunny yellow; 081 Burnt umbra; 440 Linden green; 011 Ochre; 101 Black; 441 May green; 020 Terracotta; 111 Green; 442 Golden yellow; 021 Red ochre; 121 Ultramarine blue; 443 Mint turquoise; 041 English red; 211 Cream; 444 Capri blue; 051 Persian red; 445 Blue-violet; 071 Natural umbra; All colours are inter-mixable. Please note that different surfaces can cause different colour shades (structure, absorbency). [View Colour Chart](#) Colours by Nature will mix and match colour charts for you if desired.

COVERAGE: Depending on the application and the desired colour intensity: Look on the colour charts. As full-tone paint, 1 litre is sufficient for approximately 6 m² per coat, i.e. 167ml/m².

CLEAN UP: Clean equipment immediately after use in warm, soapy water using LATIS Natural Intensive Cleaner No. 551.

DRYING TIME: At 23°C and 50 % relative humidity, surface may be painted over after 24 hours.

SPECIFIC GRAVITY: Approximately 1.1-1.3 g/ml depending on the colour.

SIZES: 0.125 litre*; 0.375 litre*; 2.5 litre; 5 litre. *typical sizes stocked

STORAGE: Cool, dry and frost free. Please, see label for expiry date. Storage time is limited once container has been opened. Cover with cellophane wrap or aluminium foil.

APPLICATION AS A COLOUR PIGMENT for WALL PAINT: Thoroughly mix the same or twice as much wall paint to the required amount of URA Colouring Paste No. 410, then add this

mixture to the remaining wall paint and stir thoroughly. Using a stirring device facilitates an even mixture. Do a test application; final colour determination only possible after complete drying.

APPLICATION AS A FULL TONE PAINT: Suitable only in areas where full abrasion resistance is not required. Not suitable for moist areas such as kitchens and bathrooms. Note that the following colours; red ochre, English red, natural umber, and black produce only a glaze; an even coverage quality is only achieved after 2-3 coats have been applied.

APPLICATION FOR RUSTIC PAINTING: Add 5-10 % SUNNO Glace Binder No. 451 to URA Colouring Paste. The consistency may be adjusted with the addition of water. For a white coating, or for lightening other colours, DUBRON Natural Wall- and Ceiling Paint No. 400 or ALBION Natural Wall- and Ceiling Paint No. 407 can be used. ARDVOS Universal Wood Oil No. 266 or shellac products are suitable for coating the treated surface. Please, do a preliminary test before applying subsequent coats, as each coating affects the treated surface's coloration.

VARIATION OF USES:

IMPORTANT TIPS: Always stir mixtures thoroughly before using URA Colouring Paste No. 410. Partial separation (especially heavy pigments), does not reflect the quality and effectiveness of the products coating ability. Alterations in colour resulting from a variation of the relevant pigments is possible; for this reason, always purchase containers showing the same batch number if possible.

These directions were prepared by LIVOS and are the result of long years of research and practical testing. They are backed by LIVOS's most current expert information.
